SUMMARY

Software engineer with 4+ years of experience shipping web, mobile and AI products end to end — from QA automation to React Native apps live on the App Store and Google Play, full stack Next.js platforms, and AI agents connected to real business tools over MCP and controlled from Slack, Teams and WhatsApp. Currently building the JIADA Unified IT System at Jharkhand Space Applications Centre.

SKILLS

AI & LLMs	Python, LangChain, MCP (Model Context Protocol), AI agents, RAG, prompt & context engineering
Frontend	React, Next.js, React Native, Redux, Tailwind CSS, HTML, CSS
Backend	Node.js, Express, REST APIs, GraphQL, WebRTC, microservice-style APIs
Databases	PostgreSQL, MongoDB, MySQL, Firebase
Cloud & DevOps	AWS (S3), GCP, GitHub Actions, CI/CD, App Store & Play Store releases
Testing & tools	Cypress, Jest, Postman, Git, JIRA, Mixpanel, Braze, Google Maps API, Firebase Dynamic Links
Languages	JavaScript, TypeScript, Python

EXPERIENCE

Software Engineer

Jun 2026 – Present

Jharkhand Space Applications Centre (JSAC) · Ranchi

- Working on the **JIADA Unified IT System** for the Jharkhand Industrial Area Development Authority — one portal for investors to search plots, apply for land allotment and approvals, and track applications across 160 industrial areas.
- Applicant dashboard with region-wise plot availability and an interactive land availability map; online services for building plan approval, lease transfer, unit certificates and plot renewal.
- Next: a land survey mobile app for field teams.

Full Stack & AI Engineer

Feb 2025 – Apr 2026

Jai Infoway Pvt. Ltd. · Ranchi

AI AGENTS & MCP

- Built seven business AI agents for **Intellibooks Studio** — Banno Employee Assist, Capital Markets, Lead Generation, Outbound Campaign, Outreach Analytics Copilot, Sector Alert Outreach and Pipeline Builder.
- Built the communication layer that lets users control their agents from Slack, Telegram, WhatsApp, Discord and Microsoft Teams, and worked on the MCP integration connecting agents to external systems.
- Built **Koodums**' bring-your-own MCP server flow: choose a server, enter its key, and every tool it exposes becomes available to the agent in chat, with registration handled in the background.
- Implemented MCP servers from scratch for Google Maps and YouTube tools, plus prompt clarification and context management (keeping recent turns only) for reliable, context-aware responses.

WEB PLATFORMS

- **PetLinx** (Next.js, PostgreSQL): built an append-only appointment audit log tracking payments, refunds, date and run changes.
- Google authentication with email verification, client & pet profile uploads with image cropping stored on AWS S3, and invite-based employee onboarding with password reset.

Stack: Python, MCP, Next.js, Node.js, PostgreSQL, Firebase, AWS S3

Mobile App Developer

Jan 2023 – Feb 2025

Jai Infoway Pvt. Ltd. · Ranchi

- Developed **Kiddie Kredit** end to end — a financial-literacy app for kids with gamified tasks and rewards, credit score simulation and child / guardian / admin roles; live on the App Store and Google Play.
- Integrated in-app purchases and subscriptions on iOS and Android, Braze and Mixpanel for analytics and campaigns, push notifications and parental controls.
- Reduced the Kiddie Kredit crash rate by 40% and improved app speed by 60% through performance tuning and lazy loading; delivered a payment integration in under 7 days.
- **Gopher**: Google Maps distance tracking between requester and receiver, and deep linking with Firebase Dynamic Links.
- **Intellibooks Waiter App**: revamped the UI, added long-press / tap table selection and simplified the order-to-billing flow.
- Built a real-time WebRTC platform for doctor–patient video and audio calls.

Stack: React Native, Redux, Node.js, MongoDB, Firebase, AWS, GCP, WebRTC

Test Automation Engineer

May 2022 – Jan 2023

Jai Infoway Pvt. Ltd. · Ranchi

- Built Cypress test suites integrated into CI/CD for stable releases; logged regressions and drove test-coverage improvements in sprint retros.
- Acted as QA lead on staging for finance and trading features.

Stack: Cypress, JavaScript, Postman, JIRA, Chrome DevTools

SELECTED PROJECTS

- **JIADA Unified IT System** — industrial land and approvals portal for Jharkhand (current).
- **Intellibooks Studio** — AI agent platform with MCP integrations and chat-app control (intellibooks.io).
- **Koodums** — Gen AI agent builder; 3-step MCP server connection (koodums.com).
- **Kiddie Kredit** — kids' financial-literacy app on iOS and Android.
- **Gopher (Request App)** — on-demand tasks & delivery app with live map tracking and deep links (gophergo.io).
- **Intellibooks Waiter App** — restaurant order-taking app for waiters, synced with kitchen and billing.
- **PetLinx** — grooming management platform (petlinx.com).
- **SWIFI** — SEC-filing data platform; built a filings web scraper and a collaborative annotation tool (Node.js).

EDUCATION

B.Sc. in Information Technology · Ranchi University · 75% — 2013 – 2016
